

Examples of How to Order Mold Parts

Whenever ordering machine or mold parts, it is essential to order by **BESSER PART NUMBER**. All parts manufactured by Besser Company have a **PART NUMBER** stamped on them. Many of our purchased parts also have Besser part numbers on them. Please make every effort to retrieve the Besser part number to assure accurate ordering.

The following descriptions and examples of BESSER Mold Parts will be helpful to you in ordering the correct parts for your Molds. For accurate interpretation and prompt shipment, the order should specify the Part Name, Quantity Required, Dimensions of unit for which parts are being ordered, and How and Where to ship. Also state type of concrete products machine being used.
